1997 *Trends in Patterns in Cultural Resource Significance: An Historical Perspective and Annotated Bibliography*, Evaluation of Environmental Investments Research Program, Technical Report EL97-5, Waterways Experiment Station, U.S. Army Corps of Engineers, Vicksburg. - Christian Gerike [On page 7 of this report, the authors state: "It is worth noting that we encountered relatively few discussions which sought to trace the evolution of the significance concept (however, see Schiffer and Gummernan, editors, 1997; Tainter and Lucas 1983; Dunnell 1984). Although the analyses and annotated bibliography which follow were not designed as a definitive historiography of significance, they are, nevertheless, an attempt to synthesize some of the more general patterns of theoretical and methodological development surrounding the idea of archaeological significance." This publication is available at www.army.mil/el/ccspt/publications.html—the Publications page of the Center for the Cultural Site Preservation Technology of the Environmental Laboratory of the U.S. Army Corps of Engineers Waterways Experiment Station (www.wes.army.mil/).
