From Marc-Antoine Kaeser:

2007. *La Tène. La recherche. Les questions. Les réponses. Die Untersuchung. Die Fragen. Die Antworten.* 108 p. ill. Biel: Museum Schwab.

Bringing together eleven contributions by Swiss and European La Tène specialists, this publication comprises an extensive and updated picture of the state of the knowledge about the La Tène site. The authors tackle a large spectrum of questions, from the history of research and the history of collections, to anthropology and archaeozoology, and from artifacts to problems of interpretation. The bilingual volume (French and German) complements the exhibition prepared and shown by the Museum Schwab in Biel, in collaboration with the Landesmuseum Zurich, within the context of the 150th anniversary of the discovery of the site of La Tène.

Reginelli Servais, G. 2007. *La Tène, un site, un mythe, 1. Chronique en images (1857–1923)*. Neuchâtel: Office et musée cantonal d'archéologie (Archéologie neuchâteloise 39).

Following the history of the site of La Tène, from its discovery in 1857 through the various stages of its excavation until 1923, this book links each important level of the research with one central figure of the burgeoning archaeology of the Neuchâtel area. Its interest is enhanced by the abundant and previously unreleased iconography picked up in the rich archive of the Laténium – Archaeology Park and Museum Neuchatel (Switzerland).

From Daniel Schávelzon:

2007. *Inventory of the George E. Stuart Collection of Archaeological and Other Materials, 1733–2006*. University Library of the University of North Carolina at Chapel Hill: Manuscripts Department. www.lib.unc.edu/mss/inv/htm/05268.html#d0e1540
